FastPay Card Management

Gain control of your digital campaigns

FACT SHEET

FastPay Card Management

FastPay Card Management allows agencies and brands greater control, security, and management of multiple digital campaigns and cards with visibility all in one place.

Features Include:

Fully Customizable Dashboard

Tag cards with custom fields, identify cards by categories, and assign user permissions — with full visibility on account status and balances

Simple, Effective Reporting

Pull transaction summaries for individual cards or subset of cards

Low Balance Alerts

Customized email alerts and controls when cards are near spend capacity

On Demand Card Creation

Create new virtual cards in seconds with the ability to assign spend limits, merchant category codes, and additional data

Card Creation Workflow

Greater control over card creation approvals provides added security

Revenue Generation

Generate rebate through virtual card transactions
