

# FASTPAY

NETWORK

Building predictability in payments is more important now than ever before. We understand your finance teams are working remotely and we're here to streamline the process with **FASTPAY NETWORK**.

Our relationships with agencies and experience processing over \$35 billion in agency spend, enables us to offer FastPay Network at scale with greater transparency into payments.

## KEY BENEFITS OF FASTPAY NETWORK

Reduced costs and delays associated with processing paper checks

Access to a supplier portal provides:

- Visibility into payment status
- Rich remittance data for both new and historical payments
- Robust search functionality into historical payments

# HOW IT WORKS

1

Agency submits payment file in ePay

2

FastPay notifies supplier of incoming payment

3

FastPay releases payment to supplier

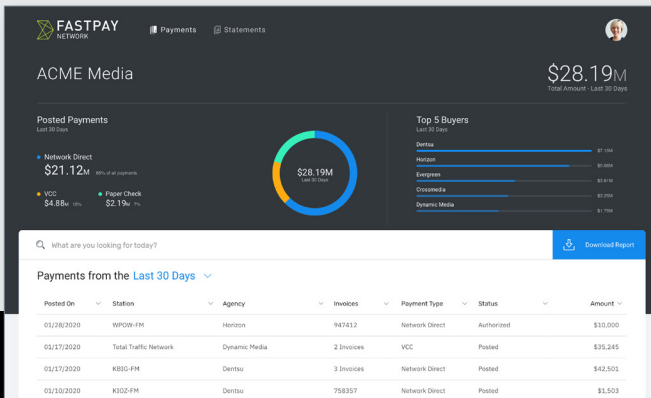

4

Supplier receives ACH payment

5

FastPay invoices supplier for payments received (monthly)

SUPPLIER CAN VIEW PAYMENT STATUS AND REMITTANCE DATA IN SUPPLIER PORTAL AT ANY TIME

FastPay Network payments post directly to your company's bank account, accompanied by detailed remittance data formatted to your preferred accounting system. There are no upfront costs, no minimum spend requirements, and you can cancel with 30 days notice. Training and service support will be provided upon joining. All this is included with a low, flat fee for payments processed through FastPay Network.
