

FastPay eResolve

Software that lets you quickly clear up invoice discrepancies

Media buying systems attempt to match spots, dots and clicks, but a lot of manual work is left for finance, media control, and buying teams. Designed for agencies, advertisers, and media suppliers, **FastPay eResolve** is a proven software solution that triages discrepancies, using algorithms built from years of experience. The no-brainers are resolved faster, and the more complicated discrepancies are sent through a workflow that connects all parties involved.

Intelligent software reduces inconsistencies, risks, and labor costs

Comprehensive workflow allows managers to load-balance tasks and resolve bottlenecks

Friction reduction through eliminating supplier calls and emails by centralizing communication

Works with Mediaocean, Strata, and other media systems

Dedicated support delivered by experts in media and discrepancy resolution

“Our media buyers and finance personnel have benefited from FastPay eResolve’s rules-based discrepancy resolution, skilled media expertise, and a software platform that meets the nuances and demands of the invoice reconciliation process.”

David Williams, Director, Ad Operations, **Media Storm**
